METRIC 2022

Abstract Title: *Relative macro placement for faster physical design process*

**Dear Mohit Sharma,**

The abstract noted above was accepted for oral presentation at the McMaster Engineering Technology Research and Innovation Conference (METRIC) 2022 in the Computing, AI and Data session. This letter serves to confirm your attendance and presentation.

METRIC is the annual conference hosted by the Engineering Graduate Society (EGS) to engage, cultivate, and develop collaboration strategies among graduate students, professors, and alumni in a variety of engineering fields.

The theme for METRIC 2022 focused on commercialization. METRIC 2022 was held in person on October 29<sup>th</sup>, 2022.

We'd like to once again thank and acknowledge our event sponsors for their contributions.
